# CROSSGUARD BARRIERS

## CUSTOM FABRICATED TRANSACTION SAFETY PANELS

### PROTECT YOUR HOTEL STAFF, YOUR GUESTS, AND YOUR COMMUNITY

**CrossGuard Barriers** are high quality transaction safety panels made from durable 1/4" frameless plexiglass. **CrossGuard Barriers** are available in two standard free-standing sizes (31-1/2" W x 36" H or 36" W x 31-1/2" H), as well as custom sizes upon request.

**CrossGuard Barriers** are ideal for a variety of applications including:

- Reception Areas
- Customer Service Desks
- Food Service Counters
- Restaurant Booth Dividers
- Personal Work Stations
- Cubicle Dividers
- Point of Sale Kiosks

**CROSSGUARD BARRIERS  
 ARE FULLY CUSTOMIZABLE  
 AND CAN BE FABRICATED  
 TO ANY SHAPE,  
 SIZE, OR SPECIFICATION.**

*In accordance with the BC Tourism & Hospitality Best Practices Guidelines for Accommodations formulated from the BC Ministry of Health's COVID-19 Guidance to the Hotel Sector, plexiglass barriers are recommended and referenced in the following subsections:*

#### 1.8.6 Further Precautions

Install physical barriers (e.g., plexiglass sneeze guards) in locations such as reception desks.

#### 2.10.13 General Food Service Precautions

Do not offer buffets and other self-service options if possible. If offered, have employees serve guests. Install physical barrier (e.g. plexiglass) or ensure employees use appropriate PPE.

#### 3.2 Meetings & Events

Event Design & Flow • Guest flow design to reduce crowding and maintain physical/social distancing (Examples: ... Protective barriers where appropriate to shield registration, meeting zones and collaborative tables.

#### 4.1.5 Use several vehicles for transportation / individual

When more than one worker is traveling, physical distancing practices apply. Consider installing physical barriers that can minimize spread of droplets.

*For complete information, please refer to the BCHA's Tourism & Hospitality Best Practices Guidelines Accommodations found at [www.bcha.com](http://www.bcha.com)*
